Abstract

This document lists the publications (co-)authored by Serge Demeyer over the last five years (2010—2014). The list includes those articles which have been accepted for publication on April 2015 but may scheduled for publication in subsequent year(s). It also lists the PhDs finished under Serge Demeyer’s supervision. The list itself is divided into categories and within each category items are listed in reverse chronological order. Whenever possible a quality indicator is included: for journal papers the SCI impact factor as published in the JCR Science Edition, for conference papers the acceptance ratio. As far as research impact concerns, an extract of the bibliometric indicators of the ACM and Google Scholar digital library are included.

Figure 1: Bibliometric indicators of the ACM and google Scholar digital libraries (Extract April 1st, 2015)
Classification

- Articles in journals with external refereeing.
- Articles in conference proceedings with external refereeing.
- Invited articles in theme books.
- Workshop Papers and Reports without External Refereeing.
